Further, the Scheme shall not deploy more than 5% of the Scheme's net assets in securities lending through a single intermediary. These limits shall be applicable at the time of participating in the securities lending by the Scheme. ⁵The Scheme may invest in the units of REITs and InvITs as per Para 12.21 (on Investments in units of REITs / InvITs) of the Master Circular, as amended from time to time, subject to the following: • No mutual fund under all its schemes shall own more than 10% of units issued by a single issuer of REIT and InvIT; and • A mutual fund scheme shall not invest: • more than 10% of its NAV in the units of REIT and InvIT; and
--	---

	• more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer. ⁶The Scheme may invest upto 5% of its net assets in units of other schemes of Capitalmind Mutual Fund as and when launched or in units of schemes of any other Mutual Fund, provided the aggregate inter-Scheme investment made by all the Schemes under the same management or in Schemes under management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund. No investment management fees shall be charged for investing in other Schemes of the Fund or in the Schemes of any other mutual fund. As per para 12.24 of SEBI Master Circular for Mutual Funds, the Cumulative Gross Exposure through Equity, Debt, Derivative position, Foreign Securities and units issued by Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (INVITs) and such other securities/assets as may be permitted by SEBI from time to time (subject to prior approval from SEBI, if any) will not exceed 100% of the net assets of the scheme. In line with Para 4.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, Securities in which investment is made for the purpose of ensuring liquidity (debt and money market instruments) are those that fall within the definition of liquid assets which includes Cash, Government Securities, T-bills and Repo on Government Securities Pursuant to para 12.25.3 of SEBI Master Circular for Mutual Funds, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash Equivalent shall consist of the following securities having residual maturity of less than 91 days: a) Government Securities; b) T-Bills; and c) Repo on Government securities and ii) subject to guidelines specified by SEBI, derivatives exposure due to hedging positions may not be included in the aforesaid limit. <i>* SEBI vide letter dated November 3, 2021, has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities.</i> The Scheme <u>shall not</u> invest/participate/engage in • Overseas Securities (including ADR, GDR) • Commodity derivatives • Instruments with special features as defined under Para 12.2 (on Investment in Instruments having Special Features) of the Master Circular, including Additional Tier I bonds and Tier 2 bonds issued under Basel III framework • Credit default swaps • Advancement of any loans • Unlisted equity shares and equity related instruments other than unlisted but 'to be listed' equity and equity related instruments • Unlisted debt instruments including commercial papers, other than (a) unlisted but 'to be listed' debt instruments including commercial papers (a) unlisted non-convertible debentures (NCDs) not exceeding 10% of the debt portfolio of the Scheme, (b) unlisted government securities, and (c) unlisted money market instruments (other than unlisted commercial papers). Investments will be made in line with the asset allocation of the Scheme and the applicable SEBI and / or AMFI guidelines as specified from time to time.
--	---

There can be no assurance that the investment objective of the scheme will be realized. Investors may note that securities which provide higher returns typically display higher volatility. Accordingly, the investment portfolio of the Scheme would reflect moderate to high volatility in its equity and equity related investments and low to moderate volatility in its debt and money market investments.

The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

Deployment of funds collected during NFO period As per SEBI Circular SEBI/HO/IMD/IMD-PoD-1/P/CIR/2025/23 dated 27 February 2025, The AMC shall deploy the funds garnered in an NFO within 30 Business Days from the date of allotment of Units. In an exceptional case, if the AMC is not able to deploy the funds in 30 Business Days, reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC. Basis root cause analysis, the Investment Committee may extend the timeline by 30 Business Days, while also making recommendations on how to ensure deployment within 30 Business Days going forward and monitoring the same. The Trustee shall also monitor the deployment of funds collected in NFO and take steps, as may be required, to ensure that the funds are deployed within a reasonable timeframe. In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall: - not be permitted to receive fresh flows in the same scheme till the time the funds are deployed as per the asset allocation mentioned in the SID. - not be permitted to levy exit load, if any, on the investors exiting such scheme(s) after 60 Business Days of not complying with the asset allocation of the scheme. - inform all investors of the NFO, about the option of an exit from the concerned scheme without exit load, via email, SMS or other similar mode of communication. - report deviation, if any, to Trustees at each of the above stages. To effectively manage the fund flows in NFO, the fund manager may extend or shorten the NFO period, based on his/her view of the market dynamics, availability of assets and his ability to deploy funds collected in NFO. However, the same shall be subject to compliance with Clause 1.10.1 and 1.10.1A of the Master Circular for Mutual Funds.				

	Investment in Tri-party Repo before the closure of NFO: The Mutual Fund/AMC shall make investment out of the NFO proceeds in various securities only on or after the closure of the NFO period. The Mutual Fund/ AMC can however deploy the NFO proceeds in Tri-Party Repo before the closure of NFO period. However, AMC shall not charge any investment management and advisory fees on funds deployed in Tri-party Repo during the NFO period. The appreciation received from investment in Tri-Party Repo shall be passed on to investors. In case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in Tri-Party Repo shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount Change in Investment Pattern Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unitholders and meet the objective of the Scheme. Such changes in the investment pattern will be for short term and defensive consideration. Provided further and subject to the above, any change in the asset allocation affecting the fundamental attribute(s) of the Scheme shall be effected in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 pertaining to change in fundamental attributes of the Scheme, as detailed in this SID Portfolio rebalancing of deviation due to short term defensive consideration: As per Para 1.14.1.2 of the Master Circular, as may be amended from time to time, the Fund Manager, with the intention to protect the interests of the unit holders may change the investment pattern for short term and defensive considerations. Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for short term and defensive considerations and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation. In case the portfolio is not re-balanced within 30 days, justification for the same shall be recorded in writing and will be placed before the investment committee. The investment committee will then decide on further course of action. Portfolio rebalancing in case of passive breach: As per Para 2.9 of the Master Circular, as may be amended from time to time, in the event of deviation from mandated asset allocation due to passive breaches (occurrence of instances not arising out of omission and commission of the AMC), the fund manager shall rebalance the portfolio of the Scheme within 30 Business Days. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to sixty (60) Business Days from the date of completion of mandated rebalancing period. Further, in case the portfolio is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall i) not be permitted to launch any new scheme till the time the portfolio is rebalanced. ii) not levy exit load, if any, on the exiting investors.
--	--

	AMCs will report the deviation to Trustees at each stage. Further, in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of the scheme, • The AMC shall immediately communicate the same to the investors of the scheme after the expiry of the mandated rebalancing period (i.e. 30 Business Days) through SMS and email/ letter including details of portfolio not rebalanced. • The AMC shall also immediately communicate to the investors through SMS and email/letter when the portfolio is rebalanced. • The AMC shall disclose scheme wise deviation of the portfolio (beyond aforesaid 10% limit) from the mandated asset allocation beyond 30 business days, on the AMC 's website i.e. https://capitalmindmf.com • The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines. The above norms shall be applicable to main portfolio and not to segregated portfolio(s). However, at all times the portfolio will adhere to the overall investment objectives of the Scheme. All of the Scheme's assets will be invested in transferable securities. The corpus of the Scheme shall not in any manner be used in option trading, short selling or carry forward transactions as stipulated in SEBI Regulations and amended from time to time. Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of the Scheduled Commercial Banks, subject to the guidelines mentioned in SEBI Master Circular for Mutual Funds, as may be amended from time to time.
Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below: Scheme Specific Risk Factors: 1) Risks associated with investing in Equity and Equity Related Instruments • Investors may note that AMC/Fund Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly due to unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. • The value of the Scheme's investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which

	may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down. • The Mutual Fund may not be able to sell securities, which can lead to temporary illiquidity. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to be collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon. • Investors may note that dividend is due only when declared and there is no assurance that a company (even though it may have a track record of payment of dividend in the past) may continue paying dividend in future. As such, the scheme is vulnerable to instances where investments in securities may not earn dividend or where lesser dividend is declared by a company in subsequent years in which investments are made by scheme. As the profitability of companies are likely to vary and have a material bearing on their ability to declare and pay dividend, the performance of the scheme may be adversely affected due to such factors. • While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which it invests. • Securities which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges • Further, the volatility of medium / small - capitalization stocks may be higher in comparison to liquid large capitalization stocks. • Fund Manager endeavors to generate returns based on certain past statistical trend. The performance of the Scheme may get affected if there is a change in the said trend. There can be no assurance that such historical trends would continue. • In case of abnormal circumstances, it will be difficult to complete the square off transaction due to liquidity being poor in stock futures/spot market. However, the scheme will aim to take exposure only into liquid stocks where there will be minimal risk to square off the transaction. • Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme or business prospects of the Company in any particular sector. • Investments in equity and equity related securities involve a certain degree of risk and Investors should not invest in the equity scheme unless they can afford to take the risk of losing their investment. 2) <u>Risks associated with investing in Debt securities & Money market instruments</u> • Market Risk: The NAV of the Scheme, to the extent invested in debt and money market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. • Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, money market instruments and derivatives run price-
--	--

	risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest, credit quality, demand and supply. However, in case of Government securities credit risk remains zero, their prices are influenced by the movement in interest rates in the financial system. In case of floating rate instruments, an additional risk could arise because of changes in spreads of floating rate instruments. With increase in spread of floating rate instruments, the price can fall and with decrease in spread of floating rate instruments, the prices can rise. Moreover, the floating rate instruments having a periodical interest rate reset carry lower interest rate risk compared to a fixed rate debt security. However, in the falling interest rate scenario, the returns on floating rate debt instruments may not be better than those on fixed rate debt instruments level at which the security is being traded. • Liquidity Risk: Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the scheme and may lead to the scheme incurring losses till the security is finally sold. The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. • Price Risk: Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. This risk is not unique to Government securities. It exists for all fixed income securities. However, Government securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system. • Settlement risk: The inability of the scheme to make intended securities purchases due to settlement problems could cause the scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the scheme's portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses in case of a subsequent decline in the value of securities held in the scheme's portfolio. • Regulatory Risk: Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the scheme. • Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. Consequently, the proceeds may get invested at a lower rate. • Credit Risk: This risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default
--	--

	occurs, the price of a security may go down because the credit rating of an issuer/instrument goes down. Different types of securities in which the scheme(s) would invest as given in the scheme information document carry different levels and types of risk. Accordingly, the Scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated. Investments in Debt Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer. • Risks associated with investment in unlisted securities: Subject to applicable regulations, the Scheme can invest in unlisted securities. These securities are subject to greater price fluctuations, less liquidity and greater risk than the listed securities. Except for any security of an associate or group company, the scheme has the power to invest in securities which are not listed on a stock exchange ("unlisted Securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Scheme will realize their investments in unlisted securities at a fair value. • Basis Risk: Basis risk arises due to a difference in the price movement of the derivative vis-à-vis that of the security being hedged. During the life of a floating rate security or a swap, the underlying benchmark index may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. • Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security, this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security. • Counterparty Risk: This is the risk of failure of counterparty to a transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of a counterparty default. • Duration Risk: Duration risk refers to the movement in price of the underlying invested money market / debt instruments due to movement/change in interest rates over different durations of maturity of instruments. In a portfolio of debt assets, the duration risk is measured by the average duration of the portfolio. Duration, expressed in years, is used as a measure of the sensitivity of the fixed income instrument to a change in interest rates. Usually, individual duration of fixed income instruments in the portfolio is calculated and the portfolio duration is weighted average of such individual instrument duration. A longer portfolio duration is associated with greater price fluctuations. A rise in interest rates could normally lead to decrease in prices and generally negatively affects portfolios having longer duration vis-a-vis portfolios having shorter duration. A fall in interest rate generally benefits portfolio having longer duration. A longer duration portfolio is also generally associated with greater volatility vis-a-vis a shorter duration portfolio.
--	---

- **Sovereign Risk:** Sovereign risk is the likelihood that a Government will default on its loan obligation by failing to meet its principal payments or interest. It comes in different forms and may result in losses to investors in addition to negative political consequences. The Central Government of a country is the issuer of the local currency in that country. The Government (Central / State) raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying no default, such securities are known as securities with sovereign credit. For domestic borrowers and lenders, the credit risk on such sovereign credit is minimal, even lower than a security with “AAA” rating and hence commands a yield, which is lower than a yield on “AAA” security.

- **Other Risks Associated with Debt and Money Market Instruments:**

- Different types of fixed income securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly, the scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated. AA rated corporate bonds are comparatively less risky when compared with A rated corporate bonds.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero-coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero-coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- The scheme at times may receive large number of redemption requests leading to an asset-liability mismatch and therefore requiring the AMC to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.

3) Risks associated with investing in securitized debt:

The Scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage-backed securities (MBS). Asset Backed Securities (ABS) are securitized debts where the underlying assets are receivables arising from various loans including automobile loans, personal loans, loans against consumer durables, etc. Mortgage-backed securities (MBS) are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. ABS/MBS instruments reflect the undivided interest in the underlying pool of assets and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. The ABS/MBS holders have a limited recourse to the extent of credit enhancement provided. If the delinquencies and credit losses in the underlying pool exceed

the credit enhancement provided, ABS/MBS holders will suffer credit losses. ABS/MBS are also normally exposed to a higher level of reinvestment risk as compared to the normal corporate or sovereign debt.

Different types of securitised debts in which the scheme would invest carry different levels and types of risks. Accordingly, the scheme's risk may increase or decrease depending upon its investments in securitised debts. e.g. AAA securitised bonds will have lower credit risk than a AA securitised bond. Credit Risk on securitised bonds may also depend upon the Originator, if the Bonds are issued with Recourse to Originator. A Bond with Recourse will have a lower Credit Risk than a Bond without Recourse. Underlying Assets in Securitised Debt may be the Receivables from Auto Finance, Credit Cards, Home Loans or any such receipts. Credit risk relating to these types of receivables depends upon various factors including macro-economic factors of these industries and economies. To be more specific, factors like nature and adequacy of property mortgaged against these borrowings, loan agreement, mortgage deed in case of Home Loan, adequacy of documentation in case of Auto Finance and Home Loan, capacity of borrower to meet its obligation on borrowings in case of Credit Cards and intentions of the borrower influence the risks relating to the assets (borrowings) underlying the Securitised Debts. Holders of Securitised Assets may have Low Credit Risk with Diversified Retail Base on Underlying Assets, especially when Securitised Assets are created by High Credit Rated Tranches. Risk profiles of Planned Amortisation Class Tranches (PAC), Principal Only Class Tranches (PO) and Interest Only Class Tranches (IO) will also differ, depending upon the interest rate movement and Speed of Pre-payments. A change in market interest rates/prepayments may not change the absolute amount of receivables for the investors, but affects the reinvestment of the periodic cashflows that the investor receives in the securitised paper.

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Seller may repossess and sell the underlying Asset. However, many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.

Prepayment Risk: This arises when the borrower pays off the loan sooner than expected. When interest rates decline, borrowers tend to pay off high

interest loans with money borrowed at a lower interest rate, which shortens the average maturity of ABSs. However, there is some prepayment risk even if interest rates rise, such as when an owner pays off a mortgage when the house is sold, or an auto loan is paid off when the car is sold.

Reinvestment Risk: Since prepayment risk increases when interest rates decline, this also introduces reinvestment risk, which is the risk that the principal can only be reinvested at a lower rate.

At present in Indian market, following types of loans are securitised:

- Auto Loans (cars / commercial vehicles /two wheelers)
- Residential Mortgages or Housing Loans
- Consumer Durable Loans
- Personal Loans
- Corporates Loans

The main risks pertaining to each of the asset classes above are described below:

Auto Loans (cars / commercial vehicles /two wheelers): The underlying assets (cars etc) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed. These loans are also subject to model risk. i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual. Commercial vehicle loans are susceptible to the cyclical in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the secondhand prices of these vehicles also decline in such economic environment.

Housing Loans: Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower class. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus, the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

Consumer Durable Loans: The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult. The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

Personal Loans: These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money. Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.
- In India, there is insufficiency of ready comprehensive and complete database regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record. In retail loans, the risks due to frauds are high.

Corporate Loans: These are loans given to single or multiple corporates. The receivables from a pool of loans to corporate are assigned to a trust that

	issues Pass Through Certificates (PTC) in turn. The credit risk in such PTCs is on the underlying pool of loans to corporates. The credit risk of the underlying loans to the corporates would in turn depend on economic cycles. The rating agencies define margins, over collateralization and guarantees to bring risk in line with similar AAA rated securities. The factors typically analyzed for any pool are as follows: a. Assets securitized and Size of the loan: This indicates the kind of assets financed with the loan and the average ticket size of the loan. A very low-ticket size might mean more costs in originating and servicing of the assets. b. Diversification: Diversification across geographical boundaries and ticket sizes might result in lower delinquency. c. Loan to Value Ratio: Indicates how much % value of the asset is financed by borrower's own equity. The lower this value the better it is. This suggests that where the borrowers own contribution of the asset cost is high; the chances of default are lower. d. Average seasoning of the pool: This indicates whether borrowers have already displayed repayment discipline. The higher the number, the more superior it is. The other main risks pertaining to Securitized debt are as follows: 4) Risks associated with investing in derivatives: The Scheme may use various derivative products as permitted by the SEBI (MF) Regulations, 1996. Use of derivatives requires an understanding of not only the underlying instrument but also of the derivative itself. Other risks include the risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. The Scheme may use derivatives instruments like Stock /Index Futures or other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the SEBI (MF) Regulations 1996 and guidelines. Usage of derivatives will expose the scheme to certain risks inherent to such derivatives. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. Derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. The specific risk factors arising out of a derivative strategy used by the Fund Manager may be as below:
--	--

	• Lack of opportunity available in the market. • Valuation Risk: The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. • Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place. The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue. Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme. • Basis Risk: This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying asset being hedged. The risk may be interrelated also e.g., interest rate movements can affect equity prices, which could influence specific issuer/industry assets. • Stock Exchanges could increase the initial margin, variation margin or other forms of margin on derivative contracts, impose one sided margins or insist that margins be placed in cash. All of these might force positions to be unwound at a loss and might materially impact returns. • Operational / Systemic Risk: This is the risk arising due to failure of operational processes followed by the exchanges and Over The Counter (OTC) participants for the derivatives trading. • Exposure Risk: An exposure to derivatives in excess of the hedging requirements can lead to losses. An exposure to derivatives can also limit the profits from a plain investment transaction. • Implied Volatility: The estimated volatility of an underlying security's price and derivatives price. • Systemic Risk: The risk inherent in the capital market due to macro-economic factors like Inflation, GDP, Global events. • Counterparty Risk: There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counterparty at the then prevailing (possibly unfavorable) market price. The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. • Credit Risk: The Credit Risk is the risk that the counter party will default in its obligations and is generally small as in a derivative transaction there is generally no exchange of the principal amount.

	Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Risks specific to certain derivative strategies are highlighted below: a) Risk associated with Interest Rate Future (IRF): An Interest Rate Futures is an agreement to buy or sell a debt instruments at a specified future date at a price that is fixed today. Interest Rate Futures are Exchange Traded and are cash settled. Hedging using Interest Rate Futures can be perfect or imperfect. Perfect hedging means hedging the underlying using IRF contract of same underlying. i. Market risk: Derivatives carry the risk of adverse changes in the market price. ii. Price Risk- The risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. iii. Liquidity risk – This occurs where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices. iv. Model Risk - The risk of mispricing or improper valuation of derivatives. v. Basis Risk – This risk arises when the instrument used as a hedge does not match the movement in the instrument/ underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets. Correlation weakening and consequent risk of regulatory breach: SEBI Regulations mandates minimum correlation criterion of 0.9 (calculated on a 90-day basis) between the portfolio being hedged and the derivative instrument used for hedging. In cases where the correlation falls below 0.9, a rebalancing period of 5 (five) Business Days has been permitted. Inability to satisfy this requirement to restore the correlation level to the stipulated level, within the stipulated period, due to difficulties in rebalancing would lead to a lapse of the exemption in gross exposure computation. The entire derivative exposure would then need to be included in gross exposure, which may result in gross exposure in excess of 100% of net asset value. b) Risks associated with Covered Call Strategy: The risk associated with covered calls is the loss of upside, i.e. if the shares are assigned (called away), the option seller forgoes any share price appreciation above the option strike price. The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity
--	--

	shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity. The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss. The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options. 5) Risks associated with securities lending: Securities lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. Engaging in securities lending is subject to risks related to fluctuations in collateral value and settlement/liquidity and counter party risks. The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Scheme may not be able to sell such lent securities and this can lead to temporary illiquidity and in turn cannot protect from the falling market price of the said security. 6) Risks associated with segregated portfolio: Liquidity risk- A segregated portfolio is created when a credit event / default occurs at an issuer level in the scheme. This may reduce the liquidity of the security issued by the said issuer, as demand for this security may reduce. This is also further accentuated by the lack of secondary market liquidity for corporate papers in India. As per SEBI norms, the scheme is to be closed for redemption and subscriptions until the segregated portfolio is created, running the risk of investors being unable to redeem their investments. However, it may be noted that, the proposed segregated portfolio is required to be formed within one day from the occurrence of the credit event. Investors may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall list the Units of the segregated portfolio on a recognized stock exchange within 10 (Ten) Business Days of creation of segregated portfolio and also enable transfer of such Units on receipt of transfer requests. For the Units listed on the exchange, it is possible that the
--	--

market price at which the Units are traded may be at a discount to the NAV of such Units. There is no assurance that an active secondary market will develop for Units of segregated portfolio listed on the stock exchange. This could limit the ability of the investors to resell them. There may be possibility that the security comprising the segregated portfolio may not realize any value.

Valuation risk - The valuation of the securities in the segregated portfolio is required to be carried out in line with the applicable SEBI guidelines. However, it may be difficult to ascertain the fair value of the securities due to absence of an active secondary market and difficulty to price in qualitative factors.

7) Risks associated with Repo Transactions in Corporate Debt Securities:

Lending Transactions: The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo lending transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavored to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

Collateral risk also arises when the market value of the securities is inadequate to meet the repo obligations or there is downward migration in rating of collateral. Further if the rating of collateral goes below the minimum required rating during the term of repo or collateral becomes ineligible for any reason, counterparty will be expected to substitute the collateral. In case of failure to do so, the AMC / Scheme will explore the option for early termination of the trade.

Borrowing Transactions: In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on due date. It is endeavored to mitigate the risk by following an appropriate counterparty selection process, which include their credit profile evaluation.

8) Risk Factors associated with Investments in REITs and InvITs:

Market Risk: REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market movements may be at variance with the anticipated trends. The NAV of the scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures. The scheme will undertake active portfolio management as per the investment objective to reduce the market risk.

	Credit Risk: In simple terms this risk means that the issuer of a debenture/ bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre-scheduled. Liquidity Risk: This refers to the ease with which REIT/InvIT Units can be sold. There is no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the Units could be infrequent. The subsequent valuation of illiquid Units may reflect a discount from the market price of comparable securities for which a liquid market exists. As the liquidity of the investments made by the scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk. The Fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying Units. Reinvestment Risk: Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of Units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. However, the reinvestment risk will be limited as the proceeds are expected to be a small portion of the portfolio value. Risk of lower than expected distributions: The distributions by the REIT or InvIT will be based on the net cash flows available for distribution. The amount of cash available for distribution principally depends upon the amount of cash that the REIT/INVIT receives as dividends or the interest and principal payments from portfolio assets. The cash flows generated by portfolio assets from operations may fluctuate based on, among other things: • success and economic viability of tenants and off-takers • economic cycles and risks inherent in the business which may negatively impact • valuations, returns and profitability of portfolio assets • force majeure events related such as earthquakes, floods etc. rendering the portfolio assets inoperable • debt service requirements and other liabilities of the portfolio assets • fluctuations in the working capital needs of the portfolio assets • ability of portfolio assets to borrow funds and access capital markets • changes in applicable laws and regulations, which may restrict the payment of dividends by portfolio assets • amount and timing of capital expenditures on portfolio assets • insurance policies may not provide adequate protection against various risks associated with operations of the REIT/InvIT such as fire, natural disasters, accidents • taxation and other regulatory factors 9) Risks associated with investing in Tri-party Repo (TREPS) through CCIL: All transactions of the Mutual Fund in government securities and in Tri- party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty
--	--

	risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The Mutual Fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time i.e. in the event that the default waterfall is triggered and the contribution of the Mutual Fund is called upon to absorb settlement/default losses of another member by CCIL, the Scheme may lose an amount equivalent to its contribution to the default fund. Further, it may be noted that CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral. 10) Performance Risk: Performance risk refers to the risk of a scheme being unable to generate returns matching / above the returns of the scheme's benchmark. It would also mean the scheme underperforming against its peer set of other mutual fund schemes having similar portfolios, scheme classification, objective, benchmark and asset allocation. These risks could arise due to a variety of market and economic activities, government policies, global economic changes, currency fluctuations, tax policies, political changes, corporate actions and investors' behaviour. 11) Risks Factors associated with transaction in Units through stock exchange(s): In respect of transaction in Units of the Scheme through stock exchange platform(s), allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by the stock exchange(s) and their respective clearing corporations on which the Fund has no control. 12) Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities: The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments. Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms and could include
--	---

guarantee, shortfall undertaking, letter of comfort, etc. from another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Credit enhancement could include additional security in form of pledge of shares listed on stock exchanges, etc. SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of car loan receivables, securities backed by trade receivables, credit card receivables etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer.

Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is adversely affected compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold.

Credit Risk: The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, co-mingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions.

Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

13) Risks associated with investment in Units of mutual fund: Investment in Mutual Fund Units involves investment risks, including but not limited to risks such as liquidity risk, volatility risk, default risk including the possible loss of principal.

- **Liquidity risk** – The liquidity of the Scheme’s investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the Scheme’s investment portfolio, these periods may become significant. In view of the same, the right to limit redemptions will be in accordance with SEBI mandated process.
- **Volatility risks:** There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The Scheme will manage volatility risk through diversification across companies and sectors.
- **Default risk** - Default risk is risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuer's ability to meet the obligations.

	Further, Subject to the approval of Board of Directors of the AMC and Trustee Company and immediate intimation to SEBI, a restriction on redemptions may be imposed by Scheme(s) under certain exceptional circumstances, which the AMC / Trustee believe that may lead to a systemic crisis or event that constrict liquidity of most securities or the efficient functioning of markets. 14) Risk factors associated with investment in unrated securities: The Scheme may invest in unrated securities as permitted under the SEBI (Mutual Funds) Regulations 1996. Investment in unrated securities involve a risk of default or decline in market value higher than rated instruments due to adverse economic and issuer-specific developments. Such investments display increased price sensitivity to changing interest rates and to a deteriorating economic environment. The market values for unrated investments tends to be more volatile and such securities tend to be less liquid than rated debt securities. 15) Risk associated with potential change in Tax structure: This summary of tax implications given in the taxation section of SAI is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.																								
Plans and Options	Plans: Capitalmind Flexi Cap Fund – Direct Plan Capitalmind Flexi Cap Fund – Regular Plan Each of the plan offers only Growth option which is the default option. The Scheme will have a common portfolio across various Plans/Options/Sub options. Investors are requested to note that under Regular and Direct Plans the Scheme shall have different NAVs. These NAVs will be separately declared. The default plan is “Direct Plan”, in case the broker code is not stated on the application. Application with broker code will be processed under Regular Plan only. Applicable NAV (after the scheme opens for subscriptions and redemptions)	Cut off timing for subscriptions/ redemptions/ switches: In case of Subscription/Switch-in for any amount: • In respect of valid applications received upto 3.00 p.m. on a Business Day at the official point of acceptance of transactions and where the funds for the entire amount of subscription/purchase as per the application/Switch-in request, are available for utilization before the cut-off time i.e. 3.00 p.m. - the closing NAV of the day shall be applicable. • In respect of valid applications received after 3.00 p.m. on a Business Day at the official point of acceptance of transactions and where the funds for the entire amount of subscription/purchase as per the application/Switch-in request, are available for utilization either on the same day or before the cut-off time of the next business day - the closing NAV of the next Business Day shall be applicable. • Irrespective of the time of receipt of application at the official point of acceptance of transactions, where the funds for the entire amount are available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable. In case of investments through Systematic Investment Plan (SIP), Systematic Transfer Plans (STP), Other STP methods as may be offered by the AMC, IDCW Transfer, Trigger etc. the units would be allotted as per the closing NAV of the day on which the funds are available for utilization irrespective of the instalment date of the SIP, STP etc. Since different payment modes have different settlement cycles including electronic transactions (as per arrangements with Payment Aggregators / Banks / Exchanges etc), it may happen that the investor's account is debited, but the money is not credited within cut-off time on the same date to the Scheme's bank account, leading to a gap/delay in Unit allotment. Investors are therefore urged to use the most efficient electronic payment modes to avoid delays in realization of funds and consequently in Unit allotment. Redemptions including switch-outs:		

	In respect of valid applications received up to 3.00 pm on a business day by the Mutual Fund, same day's closing NAV shall be applicable. In respect of valid applications received after the cut off time by the Mutual Fund, the closing NAV of the next business day shall be applicable. "Switch out" shall be treated as redemption and for "switch in" shall be treated as purchases and the relevant conditions for applicable NAV for subscription and redemption would be considered for switch in and switch out transactions.
Minimum Application Amount / Number of Units	During NFO: Minimum application amount (lumpsum): Rs. 5,000/- and in multiples of Rs. 1/- thereafter On Continuous basis: Fresh Lumpsum investment: Rs. 5,000 and in multiples of Re. 1 thereafter. Systematic Investment Plan (SIP): Rs. 1000 and in multiples of Re. 1/- thereafter with a minimum of 6 instalments. (Frequency of Daily, Weekly, Fortnightly, Monthly, Quarterly, Half-Yearly and Yearly) Minimum amount for switch-in: Rs. 1000 and in multiples of Re. 1/- thereafter Redemption: The minimum redemption /switch- amount shall be Rs. 100. If the total value of the units held by the unitholder of the Scheme at any point is less than Rs. 100, then the unitholder can redeem the entire amount, even though such amount is less than Rs. 100. Switch-out: Minimum amount for switch-out - Rs. 1000 and in multiples of Re. 1/- thereafter or the account balance of the investor whichever is less. The Scheme does not require maintenance of minimum balance in the units of the Scheme. The AMC reserves the right to change the minimum application amount from time to time. Two-factor authentication (for online transactions for subscription to units of the Mutual Fund) and signature method (for offline transactions for subscription to units of the Mutual Fund) shall be applicable. Note: As per Para 6.10 of the Master Circular on 'Alignment of interest of Designated Employees of Asset Management Companies (AMCs) with the Unitholders of the Mutual Fund Schemes', as amended on 21st March 2025, SEBI has, inter alia mandated that a minimum slab wise percentage of the salary/ perks/ bonus/ non-cash compensation (gross annual CTC) net of income tax and any statutory contributions (i.e. PF and NPS) of the Designated Employees of the AMCs shall be mandatorily invested in Units of Mutual Fund schemes in which they have a role/oversight. In accordance with the regulatory requirement, the minimum application amount wherever specified in the SID of the Fund will not be applicable for investments made in schemes of the Fund in compliance with the aforesaid circular(s). For more information, please refer to SAI.

(i) Load Structure	Load Structure: Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website link: https://capitalmindmf.com or may call at toll free no. 1-800-570-5001 or check with your distributor. ENTRY LOAD: Not Applicable (In terms of Para 10.4 of the Master Circular, no entry load will be charged to the investors.) In accordance with the requirements specified by the SEBI Master Circular for Mutual Funds, no entry load will be charged for subscription /additional subscription /switches accepted by the Mutual Fund. Similarly, no entry load will be charged with respect to applications for registrations under the SIP/STP accepted by the Mutual Fund. EXIT LOAD: For each purchase of Units through Lumpsum / switch-in / Systematic Investment Plan (SIP), Systematic Transfer Plan (STP), Exit load on redemption / Systematic Withdrawal Plan (SWP) / Switch-out, will be as follows: • If Units redeemed or switched out within 12 months from the date of allotment – 1% of the applicable NAV • If redeemed/switched out after 12 months from the date of allotment – Nil • If there is change in control of the AMC and/or change in the fundamental attributes of the Scheme and an investor wants to exit from the Scheme – Nil exit load. • The commission as specified in para 10.4 of SEBI Master Circular for Mutual Funds, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor. • Any exit load charged (net of Goods and Services tax, if any) after the commencement of SEBI (Mutual Funds) (Second Amendment) Regulations, 2012, shall be credited back to the Scheme. Any imposition or enhancement of exit load in future shall be applicable on prospective

	investments only. Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds. Note on Load Exemptions: 1. AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors. 2. No load will be charged on issue of bonus Units for existing as well as prospective investors. 3. No exit load shall be levied in case of switch of investments from Direct Plan to Regular Plan and vice versa At the time of changing the load structure, the mutual funds may consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads: • The addendum detailing the changes will be displayed on the website of the Mutual Fund https://capitalmindmf.com • The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock. • Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office. • The introduction of the exit load/ Contingent Deferred Sales Charge (CDSC) along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load/CDSC. • A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. • Any other measures which the mutual funds may feel necessary. The Trustee / AMC reserves the right to change the load structure any time in future if they so deem fit on a prospective basis. The investor is requested to check the prevailing load structure of the scheme before investing. Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service The AMC/Trustee reserves the right to change / modify the Load structure of the Scheme, subject to maximum limits as prescribed under the Regulations. *Direct Plan under the Scheme shall have a lower expense ratio than Regular Plan, excluding distribution expenses, commission, etc., and no commission shall be paid from Direct Plan. All fees and expenses charged in a Direct Plan (in percentage terms) under various heads including the investment and advisory fee

	shall not exceed the fees and expenses charged under such heads in a Regular Plan ¹ The Trusteeship fees as per the provisions of clause 14 of the Trust Deed shall be charged subject to a maximum of 0.03% per annum (of the weekly average NAV of the relevant scheme). It has been decided by the Trustee to accrue in diem the remuneration aforesaid and shall continue to be payable until the Trust shall be finally wound up and whether or not the said Trust shall be in course of administration by or under the order or direction of the Court. In addition to the aforesaid fees, the Trustee may be reimbursed for costs, charges and expenses incurred in or for the effective discharge of its obligations and responsibilities towards the Trust. The Trustees may charge expenses as permitted from time to time under the Trust Deed and SEBI (MF) Regulations. The Trustee reserves the right to change the method of allocation of Trusteeship fees for the Scheme, from time to time. ² In terms of para 10.1.16 of the SEBI Master Circular for Mutual Funds, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e. 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (Mutual Funds) Regulations for investor education and awareness initiatives. ³ Additional Expenses under Regulation 52 (6A): Brokerage and transaction costs incurred for the execution of trades and included in the cost of investment, not exceeding 0.12% of the value of trades of cash market transactions and 0.05% of the value of trades of derivative market transactions. It is hereby clarified that the brokerage and transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12% of the value of trades of cash market transactions and 0.05% of the value of trades of derivative market transactions. Any payment towards brokerage and transaction costs (including Goods & Services Tax, if any) incurred for the execution of trades, over and above the said 0.12% for cash market transactions and 0.05% of the value of trades of derivative market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations. ⁴ GST : As per clause 10.3 of the Master Circular, GST shall be charged as follows: 1) GST on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations. 2) GST on other than investment management and advisory fees, if any, shall be borne by the Scheme within the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations. 3) GST on exit load, if any, shall be paid out of the exit load proceeds and exit load net of GST, if any, shall be credited to the Scheme. 4) GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI (MF) Regulations. ⁵ As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to SEBI Master Circular for Mutual Funds, as amended from time to time. ⁶ As per Para 10.1.7 of SEBI Master Circular on Mutual Funds, schemes wherein exit load is not levied, the AMC shall not be eligible to charge the additional expenses for such scheme

	⁷New Inflows from specified Cities: To improve the geographical reach of the Scheme in smaller cities / towns as may be specified by SEBI from time to time, expenses not exceeding 0.30% p.a. of daily net assets, if the new inflows from retail investors from such cities are at least 30% of gross new inflows in the Scheme or 15% of the average assets under management (year to date) of the Scheme, whichever is higher. In case inflows from retail investors from such cities are less than the higher of (a) or (b) above, such expenses on daily net assets of the Scheme shall be charged in accordance with clause 10.1.3 of Master Circular. The amount so charged shall be utilised for distribution expenses incurred for bringing inflows from retail investors from such cities. However, the amount incurred as expense on account of inflows from retail investors from such cities shall be credited back to the Scheme in case the said inflows are redeemed within a period of one year from the date of investment. Currently, SEBI has specified that the above additional expense may be charged for inflows from retail investors from beyond 'Top 30 cities'. Top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography - Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year. Inflows from "retail investors" shall mean inflows of amount upto Rs 2 lakhs per day, from individual investors. SEBI vide letter no. SEBI/HO/IMD/IMD-SEC3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI vide letter no. 35P/MEM-COR/85/2022-23 dated March 02, 2023 has advised AMCs to keep B-30 incentive in abeyance till AMCs put in place effective controls. Accordingly, applicability of this expense ratio will be subject to any further communication issued by SEBI / AMFI in this regard. Transparency in TER: As per clause 10.1.12 of SEBI Master Circular, All scheme related expenses including commission paid to distributors, shall be paid from the scheme only within the regulatory limits and not from the books of the AMC, its associates, sponsor, trustee or any other entity through any route. - Provided that, such expenses that are not specifically covered in terms of Regulation 52 (4) – very small in value but high in volume - can be paid out of AMC books at actual or not exceeding 2 bps of the Scheme AUM, whichever is lower. - Such expenses incurred by AMC will be properly recorded and audited in the books of account of AMC at year end. - The Mutual Fund shall adopt full trail model of commission in the scheme, without payment of any upfront commission or upfronting of any trail commission, directly or indirectly, in cash or kind, through sponsorships, or any other route. - No pass back, either directly or indirectly, shall be given by the Fund / the AMC / Distributors to the investors. - Training sessions and programmes conducted for distributors would continue and would not be misused for providing any reward or non-cash incentive to the distributors The total expenses charged to the Scheme shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations and as permitted under SEBI Circulars issued from time to time.

INSTRUCTIONS FOR COMMON APPLICATION FORM

1. DISTRIBUTOR INFORMATION

- a. Commission (if any) shall be paid directly by the investor to the AMFI registered Distributors based on the investors' assessment of various factors including the service rendered by the distributor.
- b. Please mention 'DIRECT' in case the application is not routed through any distributor.
- c. Pursuant to SEBI circular dated September 13, 2012, mutual funds have created a unique identity number of the employee/ relationship manager/ sales person of the distributor interacting with the investor for the sale of mutual fund products, in addition to the AMFI Registration Number (ARN) of the distributor. This Employee Unique Identification Number is referred as "EUIIN". EUIIN aims to assist in tackling the problem of mis-selling even if the employee/relationship manager/sales person leaves the employment of the distributor or his/her sub broker. Quoting of EUIIN is mandatory in case of advisory transactions. Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column "Sub broker ARN code" separately provided, in addition to the current practice of affixing the internal code issued by the main ARN holder in the "Sub broker code (as allotted by ARN holder)" column and the EUIIN of the Sales Person (if any) in the "EUIIN" column.
- d. Distributor are advised to ensure that they fill in the RIA/PMRN code, in case they are a Registered Investment Advisor / Portfolio Manager.
- e. Investors are requested to note that EUIIN is applicable for transactions such as Purchases, Switches, Registrations of SIP/STP and EUIIN is not applicable for transactions such as Installments under SIP/STP/SWP, Redemption, SWP Registration.
- f. Investors are requested to note that EUIIN is largely applicable to sales persons of non individual ARN holders only (whether acting in the capacity of the main distributor or sub broker). Further, EUIIN will not be applicable for overseas distributors who comply with the requirements as per AMFI circular.

Please select mode of holding, if option left blank then default option of Anyone or Survivor will be considered.

6. INVESTMENT/PAYMENT DETAILS

Plans:

The AMC has introduced a separate plan for direct investments (i.e. investments not routed through an AMFI Registration Number(ARN) Holder("Distributor"))(hereinafter referred to as "Direct Plan").

There shall be 2 Plans available for subscription under the Schemes viz., Regular Plan and Direct Plan.

- Investors subscribing under Direct Plan of the Schemes should indicate the Scheme/Plan name in the application form as "Scheme Name - Direct Plan" e.g. "Capitalmind Flexi Cap Fund Direct Plan". Investors should also indicate "Direct" in the ARN column of the application form. However, in case Distributor code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name, the Distributor code will be ignored and the application will be processed under Direct Plan. Please note, where application is received for Regular Plan without Distributor code or "Direct" mentioned in the ARN Column, the application will be processed under Direct Plan.
- Please indicate the Plan under which you wish to invest.
- Payment may be made only by Cheque or Electronic Fund Transfer. Cheque should be drawn in favour of the "Scheme name" - e.g. "Capitalmind Flexi Cap Fund Direct Plan" and crossed "Account Payee only". Please refer to Scheme Information Document, Statement of Additional Information &
- Key Information Memorandum of the scheme for the Minimum amount criteria of the Scheme.
- Please note that third party payments shall not be accepted.
- Third Party Payment shall mean payment made through an instrument issued from an account other than that of the beneficiary investor. In case of payment instruments issued from a joint bank account, the first named applicant/investor must be one of the joint holders of the bank account from which the payment instrument is issued. 'Related person/s' means such persons as may be specified by the AMC from time to time. Exceptions: MF will accept subscriptions to schemes of Capitalmind MF accompanied by Third- Party Payment Instruments only in the following exceptional cases:
- a. Payment by Employer on behalf of employee under Systematic Investment Plans or lumpsum/one time subscription, through Payroll deductions or deductions out of expense reimbursements.
- b. Custodian on behalf of a Foreign Portfolio Investors (FPIs) or a client.
- c. Payment by an AMC to an empanelled Distributor on account of commission/incentive etc. in the form of the Mutual Fund units of the schemes managed by such AMC through SIP or lumpsum/one time subscription, subject to compliance with SEBI Regulations and Guidelines issued by AMFI, from time to time.
- d. Payment by a Corporate to its Agent/Distributor/Dealer (similar arrangement with Principal "agent relationship), on account of commission or incentive payable for sale of its goods/services, in the form of the Mutual Fund Units through SIP or lump sum/one time subscription, subject to compliance with SEBI Regulations and Guidelines issued by AMFI, from time to time.
- e. Payment by registered Stock brokers of recognized stock exchanges for their clients having demat accounts. The investors making an application under the above mentioned exceptional cases are required to comply with the following, without which their applications for subscriptions for units will be rejected / not processed.
- Mandatory KYC compliance of the investor and the person making the payment, in order to determine the identity of the investor and the person issuing the payment instrument.
- Submit a separate, prescribed, 'Third Party Payment Declaration Form' from the beneficiary applicant/s and the person making the payment i.e., the Third Party, giving details of the bank account from which the payment is made and the relationship of the Third Party with the beneficiary. (The declaration form is available at <https://www.capitalmindmf.com>)
- Submit a cancelled cheque leaf or copy of bank statement /pass book mentioning bank account number, account holders' name and address or such other document as the AMC may require for verifying the source of funds to ascertain that funds have been remitted from the drawer's account only

registered/pay-out bank account details or by matching the bank account number/name/ signature of the first named investor with the name/account number/signature available on the cheque. If the name/bank account number is not pre-printed on the cheque and signature on the cheque does not match with signature on the application, then the first named applicant/investor should submit any one of the following documents:

- (1) a copy of the bank passbook or a statement of bank account having the name and address of the account holder and account number
- (2) letter (in original) from the bank on the bank's letterhead certifying that the investor maintains an account with the bank, along with information like bank account number, bank branch, account type, the MICR code of the branch & IFSC Code (where available). In respect of (ii) above, it should be certified by the bank manager with his/her full signature, name, employee code, bank seal and contact number. Investors should note that where the bank account numbers have changed on account of the implementation of core banking system at their banks, any related communication from the bank towards a change in bank account number should accompany the application form for subscription of units.

- b. Payment by RTGS, NEFT, ECS, Bank transfer, etc:

A copy of the instruction to the bank stating the account number debited must accompany the purchase application. The account number mentioned on the transfer Instruction copy should be a registered bank account or the first named unitholder should be one of the account holders to the bank account. The above broadly covers the various modes of payment for mutual fund subscriptions.

The above list is only indicative not exhaustive list and any other mode of payment as introduced from time to time will also be covered accordingly. In case the application for subscription does not comply with the above provisions, the AMC / Registrars retains the Sole and absolute discretion to reject/not process such application and refund the subscription money and shall not be liable for any such rejection.

c. NRI investors

NRI Investors and FPIs- NRIs and PIOs may purchase units of the scheme(s) on a repatriation and non-repatriation basis, while FPIs (erstwhile known as FIIs) may purchase units only on a repatriation basis and subject to applicable laws. They shall attach a copy of the cheque used for payment or a Foreign Inward Remittance Certificate (FIRC) or an Account Debit Certificate from the bankers along with the application form to enable the AMC to ascertain the repatriation status of the amount invested. The account type shall be clearly ticked as NRE or NRO or FCNR, to enable the AMC determine the repatriation status of the investment amount. The AMC and the Registrar may rely on the repatriation status of the investment purely based on the details provided in the application form.

e. Systematic Investment Plan (SIP) :

Please read Scheme Information Document, Statement of Additional Information and Key Information Memorandum of Capitalmind Flexi Cap Fund for the applicability/ availability of Special Features in the respective scheme.

- If you wish to register SIP, kindly submit the relevant SIP Registration & OTM Debit Mandate Form.

SIP during NFO period

- For SIP applications received during NFO Period, the SIP start date shall be at least 21 Business Days after the NFO allotment date. The first SIP cheque could be of any Business Day but subsequent Auto Debit mandate should be for any date from 1st to 28th of a month and there should be a minimum gap of at least 21 Business Days between the 1st SIP transaction and the 2nd SIP instalment

- The gap must be 21 Business Days or a quarter depending upon the chosen SIP frequency. In case the criteria is not met, the SIP would start on the same date from the next month. If the SIP execution date is a non-Business Day for the Scheme, then the Units shall be allotted based on realisation of proceeds.

7. UNIT HOLDING OPTION(Demat/Non - Demat)

- a. Investors can hold units in demat / non-demat mode. In case demat account details are not provided or details of DP ID / BO ID, provided are incorrect or demat account is not activated or not in active status, the units would be allotted in non-demat mode.
- b. Statement of Accounts would be sent to Investors who are allotted units in non-demat mode.
- c. Units held in dematerialized form are freely transferable with effect from October 01, 2011, except units held in Equity Link Savings Scheme during the lock-in period.

For identifying Third Party Payments, investors are required to comply with the requirements specified below :

a. Payment by Cheque:

An investor at the time of his/her purchase must provide the details of pay-in bank account (i.e. account from which a subscription payment is made) and pay-out bank account (i.e. account into which redemption are to be paid). Identification of third party cheques by the AMC / Registrars will be on the basis of either matching of pay-in bank account details with

8. FOREIGN ACCOUNT TAX COMPLIANCE (FATCA) FATCA & CRS TERMS & CONDITIONS:

Details under FATCA & CRS: The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income- tax Rules, 1962, which Rules require Indian financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our account holders. In relevant cases, information will have to be reported to tax authorities / appointed agencies. Towards compliance, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days. Please note that you may receive more than one request for information if you have multiple relationships with Capitalmind Mutual Fund or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information

FATCA & CRS INSTRUCTIONS: If you have any questions about your tax residency, please contact your tax advisor. Maximum period of validity of this mandate is 40 years only

Please read Scheme Information Document along with Statement of Additional Information and addendum issued from time to time before filling this form.

The Unit holders of the Scheme can benefit by investing specific amounts periodically, for a continuous period. In case of Equity/Debt and hybrid funds, at the time of registration, the SIP allows the investors to invest fixed equal amounts subject to minimum of ₹1000/- and multiples of ₹1/-

Following are the frequencies and minimum amount of SIP -

- Daily, Weekly, Fortnightly, Monthly, Quarterly, Half-Yearly and Yearly
- Minimum number of instalments for each frequency is 6(Six)

Investors can enroll themselves for SIP in the Scheme by ticking appropriate box on the application form or by subsequently making a written request to that effect to the Registrar & Transfer Agent.

Investors can subscribe to SIP by using OTM. The cheques should be in favour of the scheme and crossed "Account Payee Only", and the cheques must be payable at the centre where the applications are submitted to the Investor Service Centre.

In case of fresh/additional purchases, if the name of the Scheme on the application form/transaction slip differs from the name on the Cheque, then the AMC will allot units under the Scheme mentioned on the application form/transaction slip.

Further, Investors/ unitholders subscribing for SIP are required to submit SIP request by filling SIP application form at least 21 working days prior to the date of first debit date and SIP start date shall not be beyond 100 days from the date of submission of request for SIP's.

In case existing mandates are successfully registered, a new SIP registration will take upto five business days. The first debit may happen any time thereafter, based on the dates opted by the Unit holder(s).

A fresh Account Statement / Transaction Confirmation will be mailed to the Unitholder, indicating the new balance to his/her credit in the Account. An investor will have the right to discontinue the SIP, subject to giving 2 calendar days prior notice in writing or by filling SIP cancellation form to the subsequent SIP date.

New Please fill Common Application Form along with SIP Registration & OTM Debit Mandate Form. If the investor fails to mention the scheme name in the SIP Registration Form, then the Fund reserves the right to register the SIP as per the scheme name available in the Common application. In case of any ambiguity in the form, Fund reserves the right to reject the SIP request.

Existing Please fill SIP Registration & OTM Debit Mandate Form and mention the existing folio number. If the investor fails to mention the scheme name in the SIP Registration Form, then the Fund reserves the right to register the SIP in the existing scheme (Eligible for SIP) available in the Folio. In case Multiple Schemes are available in the folio then Fund reserves the right to reject the SIP request.

- The SIP registration will be discontinued or considered as closed/ cancelled by the AMC upon 3 failed debit attempts under Daily, Weekly, Fortnightly and monthly frequencies and 2 failed debit attempts under Quarterly, Half-Yearly and Yearly Frequencies.

- The AMC will endeavour to have the cancellation of registered SIP mandate within 02 Business days from the date of receipt of the cancellation request from the investor. The existing instructions / mandate would continue till the date that when it is confirmed the SIP has been cancelled.

- In case of SIP investments, where the entire instalment amount is not available in the bank account, the SIP for that month would be rejected. Allocation to a particular Scheme or pro-rata allocation to Schemes will not be carried out. For e.g. the investor has SIPs in Scheme A and Scheme B of the AMC for amounts of INR 2000 each. If the investor has less than INR 4000 in the bank account on the day of SIP, no order will be placed.

- As per NPCI Circular NPCI/NACH/OC No.012/2023-24, mandate can be registered for a maximum duration of 40 years. An investor has to mandatorily enter the 'End Date' of the mandate by filling the date for a maximum period of 40 years from the start date or less

- If the OTM end date is more than 40 years, then the OTM Mandate will be rejected.

SIP Applications during NFO Period :

- For SIP applications received during NFO Period, the SIP start date shall be at least 21 Business Days after the NFO allotment date. The first SIP cheque could be of any Business Day but subsequent Auto Debit mandate should be for any date from 1st to 28th of a month and there should be a minimum gap of at least 21 Business Days between the 1st SIP transaction and the 2nd SIP instalment.

- The gap must be 21 Business Days or a quarter depending upon the chosen SIP frequency. In case the criteria is not met, the SIP would start on the same date from the next month. If the SIP execution date is a non-Business Day for the Scheme, then the Units shall be allotted based on realisation of proceeds.

Default Dates:

- For Weekly SIP, Tuesday will be the default day and in case of Fortnightly SIP 1st and 16th of the month will be the default option.
- The SIP transaction (in weekly / fortnightly) will happen only on business day. For e.g. if the default day falls on a non-working day, the transaction will take place on the next working day only.
- If the investor has not mentioned the SIP start Month, SIP will start from the next applicable month, subject to completion of 10 Business Days lead time from the receipt of SIP request
- In case the SIP 'End period' is incorrect or not mentioned by the investor in the SIP form, then the default end period would be 40 years from the start date until further instructions are received from investor.

SIP Top Up Facility:

SIP Top-Up facility shall be available to all the investors. Investors can opt for SIP Top Up facility with Fixed Top Up option or Variable Top Up option wherein the amount of the SIP could be increased at fixed intervals.

- The Fixed Top Up amount shall be for minimum INR 1000/- and in multiples of INR 1/- thereafter.
- Variable Top Up would be available in at 5%, 10% and 15% and such other denominations (over and above 5%, 10% and 15%) as opted by the investor in multiples of 5%.
- In case the investor opts for both options, the Variable Top Up option would be triggered.
- The frequency is fixed at Yearly and Half Yearly basis.
- In case the SIP Top Up facility is not opted by ticking the appropriate box and frequency is not selected, the Top Up facility may not be registered. Default frequency, in case Top Up facility is opted and frequency is not selected would be Half-Yearly interval.
- Quarterly SIP offers Top up frequency only at yearly intervals.

SIP Pause Facility:

The Scheme offers Systematic Investment Plan ("SIP") Pause facility ("the Facility") for investors who wish to temporarily pause their SIP in the Schemes of the Fund. (subject to terms and conditions)
SIP pause requests should be submitted at least 15 days before the requested start date.

Top-Up Cap option:

Unit holders have an option to cap the SIP Top-up amount based on either a fixed predefined amount or date as detailed below

Top-Up Cap amount: Investor has an option to cap the SIP instalment (including Top- Up amount) once it reaches a fixed predefined amount. Thereafter the SIP instalment will remain constant till the end of SIP tenure.

- The fixed pre-defined amount should be same as the maximum amount mentioned by the investor in the bank mandate.
- In case of difference between the Top Up Cap amount and the maximum amount mentioned on Bank mandate, then amount which is lower of the two amounts shall be considered as the default amount of SIP Top-Up Cap amount.

Top-Up Cap month-year: Investor has an option to provide an end date to the SIP Top-up amount. It is the date from which Top - up to the SIP instalment amount will cease and the SIP instalment will remain constant till the end of SIP tenure. If none of the above options for Top-up cap is selected by the investor, the SIP Top-up will continue as per the SIP end date and Top-up amount specified by the investor.

Background:

In its continuing endeavour to make the existing New Fund Offer process more efficient, SEBI introduced a supplementary process of applying in New Fund Offer, viz: the "Applications Supported by Blocked Amount (ASBA)" process. Accordingly, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended have been amended for ASBA process. The salient features of circular no. SEBI/CFD/DIL/ASBA/1/2009/30/12 dated December 30, 2009 available on SEBI website for "Additional mode of payment through Applications Supported by Blocked Amount (hereinafter referred to as "ASBA") are mentioned below for understanding the ASBA process:

1. **Meaning of ASBA:** ASBA is an application for subscribing to a New Fund Offer (NFO), containing an authorization to block the application money in a bank account.
2. **Self-Certified Syndicate Bank (SCSB):** SCSB is a banker to an issue registered with the SEBI which offers the facility of applying through the ASBA process. The list of SCSBs will be displayed by SEBI on its website at www.sebi.gov.in from time to time. ASBAs can be accepted only by SCSBs, whose names appear in the list of SCSBs displayed on SEBI's website. Investors maintaining their accounts in any of these Banks may approach one of the designated branches of these SCSBs for availing this facility. Further it may be noted that from time to time new banks register themselves as SCSBs who become eligible to provide these services and also the existing SCSBs designate additional branches that also provide this facility. An updated list of all the registered SCSBs, their controlling branches, contact details and details of their contact persons, a list of their designated branches which are providing such services is available on the website of SEBI at the address <http://www.sebi.gov.in>. Further these details are also available on the websites of the Stock Exchanges at <http://www.bseindia.com> and <http://www.nseindia.com>. Alternatively, investors may also contact the AMC, R&TA for information about the SCSBs or the ASBA process. These SCSBs are deemed to have entered into an arrangement with the Issuer and shall be required to offer the ASBA facility to all its account holders for all issues to which ASBA process is applicable. An SCSB shall identify its Designated Branches (DBs) at which an ASBA Applicant shall submit ASBA and shall also identify the Controlling Branch (CB), which shall act as a coordinating branch for the Registrar to the Issue, Stock Exchanges and Merchant Bankers. The SCSB, its DBs and CB shall continue to act as such, for all issues to which ASBA process is applicable. The SCSB may identify new DBs for the purpose of ASBA process and intimate details of the same to SEBI, after which SEBI will add the DB to the list of SCSBs maintained by it. The SCSB shall communicate the following details to Stock Exchanges for making it available on their respective websites. These details shall also be made available by the SCSB on its website:
 - i. Name and address of the SCSB
 - ii. Addresses of DBs and CB and other details such as telephone number, fax number and email ids.
 - iii. Name and contact details of a nodal officer at a senior level from the CB.
3. **Eligibility of Investors:** An Investor shall be eligible to apply through ASBA process, if he/she:
 - i. is a Resident Retail Individual Investor, Non Institutional Investor, QIBs, Eligible NRIs applying on non-repatriation basis, Eligible NRIs applying on repatriation basis i.e. any investor,
 - ii. is applying through blocking of funds in a bank account with the SCSB; Such investors are hereinafter referred as ASBA Investors (Refer 4th instruction)
4. **ASBA Facility in Brief:** An Investor shall submit his / her Application through an ASBA Application Form, either in physical or electronic mode, to the SCSB with whom the bank account of the ASBA Investor or bank account utilised by the ASBA Investor (ASBA Account) is maintained. The SCSB shall block an amount equal to the NFO application Amount in the bank account specified in the ASBA Application Form, physical or electronic, on the basis of an authorisation to this effect given by the account holder at the time of submitting the Application. The Application Amount shall remain blocked in the aforesaid ASBA Account until the Allotment in the New Fund Offer and consequent transfer of the Application Amount against the allocated Units to the Issuers account designated for this purpose, or until withdrawal/failure of the Offer or until withdrawal / rejection of the ASBA Application, as the case may be. The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchanges.
